ALLEGED SOUTHERN WRECKERS CAPTURED.

Brunswick Ga., Feb. 24.-G. S. Scarlett and A. P. New, special agents of the Southern Railway, with headquarters here, have succeeded in capturing a negro who, a few weeks ago, made a bold attempt to wreck a Southern train near Hazemurst in Appling county, and save for the discovery of the attempt by the agent at that place, the Florida Limited, which passed a few hours later, would have been wrecked, and no doubt the wreck would have been one of the most serious of the year.

The negro arrested is Lewis Riles. an employe of the Southern. It seems that he had some grievance against the road and was to get revenge by killing the train crew and passengers. On the night of February 9 the northbound switch was thrown open and locked by the negro, who was assisted by one or two others. The agent, a few hours later observed the switch light showing red, which indicated that it had been thrown. The agent quickly rushed to the switch and found it tightly locked. A freight train was then in a sidetrack a short distance away and he quickly informed the train crew, just in time. The switch was unlocked and fortunately

no accident occurred. Southern officials in Atlanta were at once notified and Special Agents Scarlett and New were detailed to the case, They arrived at Hazlehurst about ten days ago and, without the least clew, began the work, which resulted in the arrest of Riles and another negro who is charged with be ing an accessory. Both negroes were brought to Brunswick and placed in jail and will to-morrow be carried to Baxley, the county seat of Appling. Riles was arrested aboard a work train near Graham, and resisted the and a large dirk. He has not yet been informed of the charge on which he is being held, but the officers have evidence that satisfy them he is guilty, and they expect to capture other newreck the train.

Heels Half a Yard High.

The streets of the old city of Venice were often extremely thick in mud, in spite of the great sewers which dated from the tenth century. Even now the thoroughfares between the Piazza As Many a Pensacola Reader Knows and Rialto are sometimes sufficiently bad. We are writing of the time when the population was nearly five times what it now is, and when Venetian trade was at its zenith. Well, to combat this mud the ladies took to high heeled shoes.

As the mud grew worse the heels became taller and taller until at length they were half a yard high and as diffiing at 120 East Intendencia street, cult to control as a pair of stilts withsays: "My kidneys have bothered me out handles. Genius In the Hat.

You seldom will find a brainy man with a round head. The head that contains lots of brains either is very long from front to back or else irregular. You can learn something of a man's mental ability by the hat he wears. If his head is so bumpy that it seems as if he never could get a hat to fit him he probably is a genius or an eccentric in some particular line. If his head is long from front to back he is a clear thinker and keen as a razor. So if your hat costs more money than your friend's hat does and you are harder to fit be consoled by considering that your brain is worth more.-Chicago Journal.

Queer Anatomy.

Curious ideas about anatomy prevail in the press. It was stated the other day that a man was "shot in the ticket office." Another paper says a man was "shot in the suburbs," "He kissed her passionately upon her reappearance," "She whipped him upon his return," "He kissed her back," "Mr. Jones walked in upon her invitation," "She seated herself upon his entering," "We thought she sat down upon her being asked," "She fainted upon his departure."

Insanity, Death or Health?

I was a victim of sleeplessness and extreme nervousness for eighteen months, unable to get a proper night's rest and feeling tired and worn out continually. I was easily irritated and hysterical at the slightest provocation, but Wine of Cardui gave me great relief. Within a week after I began using it I had my first real good night's rest that I had had for months. My appetite was soon restored, my general system toned up and nervousness became a thing of the past.
